School Report

The School Board and the Superintendent respectfully submit the following report:

Eight schools have been maintained in town during the past year, with enrollment as follows: Primary 30; Intermediate 33; Second Grammar 47; First Grammar 34; Birch Point 10; South 14; North 7; Lowelltown 8. Attendance has been above normal, and very satisfactory progress has been made in all eight schools. Board has been furnished to one scholar, as shown elsewhere in your Town Report. It would seem advisable for the town to vote to keep North, Birch Point, and Lowelltown Schools open, although the trend towards consolidation becomes more apparent each year. The increase in appropriations has permitted a number of definite improvements, such as School Libraries, Increase of Salaries, Modernization of Toilets, and other items. The usual 36 week year has been carried through to successful completion in all eight schools.

The School Board is to be commended for the condition of school buildings, and for the rigid economies constantly exercised. South School has been thoroughly re-conditioned, and the Academy painted. All buildings are in excellent repair.

The District Nurse, for which you raised \$80, seems to have given better satisfaction this year. Everyone appreciated the many home visits, made as a result of the school examinations for physical condition, and the use of the audiometer has given us, at last, an accurate report on the hearing of the children. Also, at the request of the Supt., a State Dental Hygienist examined the children's teeth, and reported them as being quite as bad as any in the State. This is a condition that we should all cooperate in attempting to remedy at once.

In closing this brief report may we take this opportunity to thank Citizens, Municipal Officers, and Teachers for their interest, support, efficiency, and guidance.

Respectfully submitted,

RANDALL CUMMINGS,
Superintendent.
